Cribbage is a classic card game that can be enjoyed by people of all ages. It's a relatively simple game to learn, but it can be challenging to master. If you're looking for a fun and challenging game to play with friends or family on video call, cribbage is a great option.

Getting Started

To play cribbage, you will need a deck of 52 cards and a cribbage board. A cribbage board is a wooden board with 120 holes, divided into two tracks of 60 holes each. Each player has a set of 10 pegs, which they use to keep track of their score.

To start the game, each player draws 6 cards from the deck. The remaining cards are placed in a pile in the center of the table, face down. This pile is called the kitty.

The Play

The game is played in a series of rounds. Each round, one player is the dealer and the other player is the non-dealer. The dealer deals 6 cards to each player and turns the top card of the kitty face up. This card is called the starter card.

The non-dealer then lays down two cards from their hand, face up. The dealer then lays down two cards from their hand, face up. The non-dealer then lays down their remaining two cards, face up. The dealer then lays down their remaining two cards, face up.

Once all the cards have been laid down, the players score their hands. The player with the highest score wins the round.

Scoring

The goal of cribbage is to score points by making combinations of cards. There are many different combinations that can be made, each with its own point value. The most common combinations are:

- **Fifteen:** A combination of three cards that add up to 15. (2 points)
- **Pair:** Two cards of the same rank. (2 points)
- **Three of a kind:** Three cards of the same rank. (6 points)
- **Four of a kind:** Four cards of the same rank. (12 points)

- **Flush:** Five cards of the same suit. (4 points)
- **Straight:** Five cards in a row. (5 points)
- **Royal flush:** A straight flush from 10 to Ace. (25 points)

In addition to these basic combinations, there are also a number of special combinations that can be made. These combinations are worth more points than the basic combinations.

Winning

The first player to reach 121 points wins the game. If both players reach 121 points in the same round, the player with the higher score wins.
