Print length : 2311 pages

The book is divided into three main sections:

- **History:** This section covers the development of firearms from their earliest origins to the present day. It discusses the major milestones in firearms history, such as the invention of the wheellock, the flintlock, and the percussion cap.
- **Technology:** This section covers the technical aspects of firearms, including their design, construction, and operation. It discusses the

different types of firearms, such as rifles, pistols, and shotguns, and the different mechanisms that they use.

- **Design:** This section covers the aesthetic aspects of firearms, including their shape, decoration, and finish. It discusses the different styles of firearms, such as the Renaissance, the Baroque, and the Rococo.

The World Firearms Reference is an essential reference for anyone who is interested in firearms. It is a valuable resource for historians, collectors, shooters, and anyone else who wants to learn more about the fascinating world of firearms.
